REQUEST FOR CORRECTED FILING RECEIPT

Dear Sir:

In reply to the "Response To Request For Corrected Filing Receipt" dated July 29, 2003 regarding Application No. 10/630,439, Applicants hereby request that the Official Filing Receipt, a copy of which is enclosed, be corrected to also list the priority to Provisional Application No. 60/213,764 filed June 23, 2000 (hereinafter called the '764 application).

Applicants presently claim priority to U.S. Application No. 09/888,868, now U.S. Patent No. 6,665,849, thereby also obtaining the filing date of parent, its priority cases, i.e., Provisional Application No. 60/213,764. Applicant notes that the '868 application and the '764 application are currently listed in the related application section of the present case; however, it fails to clearly indicate that the '764 application is a priority application of the '868 application.

Applicants send herewith an amendment to correct the "Related Applications" section of Application No. 10/630,439 (the instant application), as the relationship of the aforementioned applications may not have been clearly stated.

Appl. No. : 10/630,439
Filed : July 29, 2003

A priority date may be claimed under 37 CFR § 1.7, as the date twelve months after the aforementioned date of the provisional application fell on a Saturday and the period of pendency continued until Monday, June 25, 2001, upon which date Application No. 09/888,868 was filed.

If there any questions, the PTO is encouraged to contact the undersigned at the number below.

Respectfully submitted,

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10. (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
